Brian:

Just sent you our letter on Lightstone. As far as a meeting on a proposed consent order – would the 13th at 9:00 a.m work for you and Walter. Please advise asap. Thanks.

Thanks, Chris.

The other near term item, which EPA wants resolved this week and I was told is forthcoming based on Angela Licata's agreement, is a letter allowing Lightstone to install the oil/water separator as part of a pilot and subject to DEP evaluation on its efficacy.

Subject: Gowanus Meeting

Chris,

I tried to call but got your voicemail. I assumed an email may get to you sooner.

I have been tasked to reach out to you to arrange a meeting to begin discussions of a Remedial Design Consent Order regarding the property acquisition process for the CSO tank.

EPA would like to hold the initial discussions fairly soon. At present, it appears that either Thursday morning November 12th would work, or Friday November 13th.

At minimum, Walter Mugdan and I would expect to participate for EPA.

Getting the City a draft of the order is a high priority. Our goal would be to do so by Monday November 9th, sooner if possible.

The basic form of the order will resemble the March 2014 draft sent to the City, attached, modified of course to address the conditions relating to acquisition process as transmitted to Angela Licata by Walter Mugdan.

My personal view of this first meeting would be to have a working discussion of the parameters of a consent order; one or more additional meetings and exchanges of drafts will be needed in all likelihood. The initial dialogue, however, should speed up the process of reaching a meeting of the minds.

Please let me know at your earliest convenience as to the City's availability for a meeting in or about this timeframe.

Thank you,

Brian E. Carr
